

105 Refugees identified

32 Women

59 Men

9 Boys

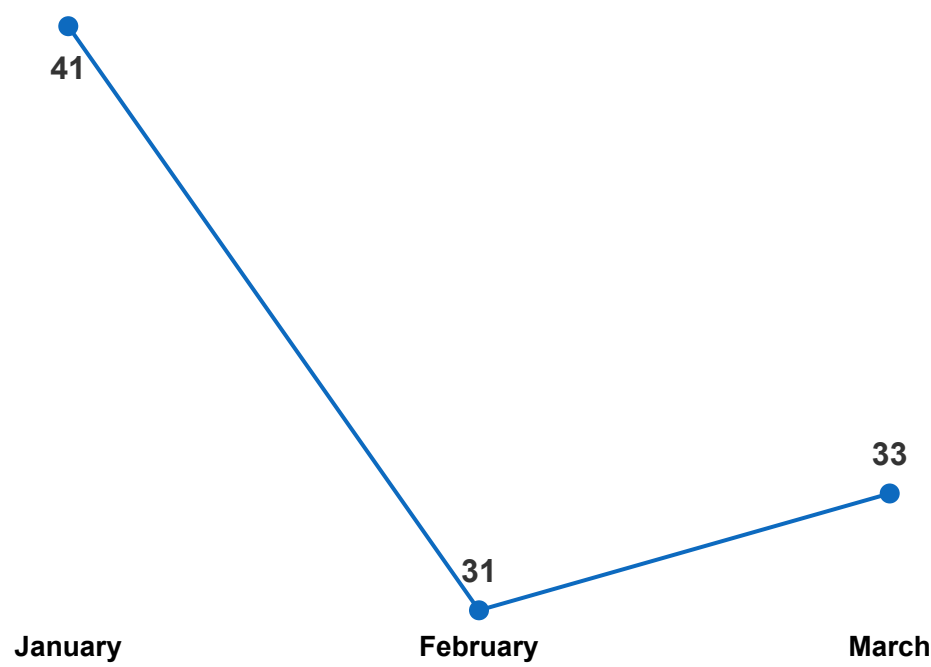

5 Girls

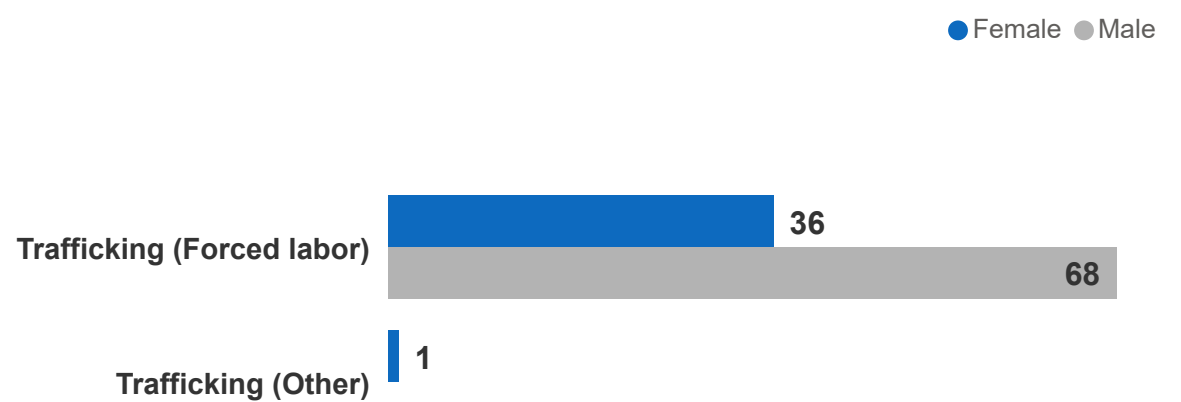

The Dashboard reflects available data about Rohingya refugees' victims of human trafficking that ATWG members have identified, referred and assisted (105 refugees identified between January and March 2023) *. The data on this Dashboard is generated from information communicated by ATWG members and should not be interpreted as showing the extent of prevalence of human trafficking in the camps. These statistics may be subject to change.

65% of identified victims are male and 35% female

Number of identified victims by Month

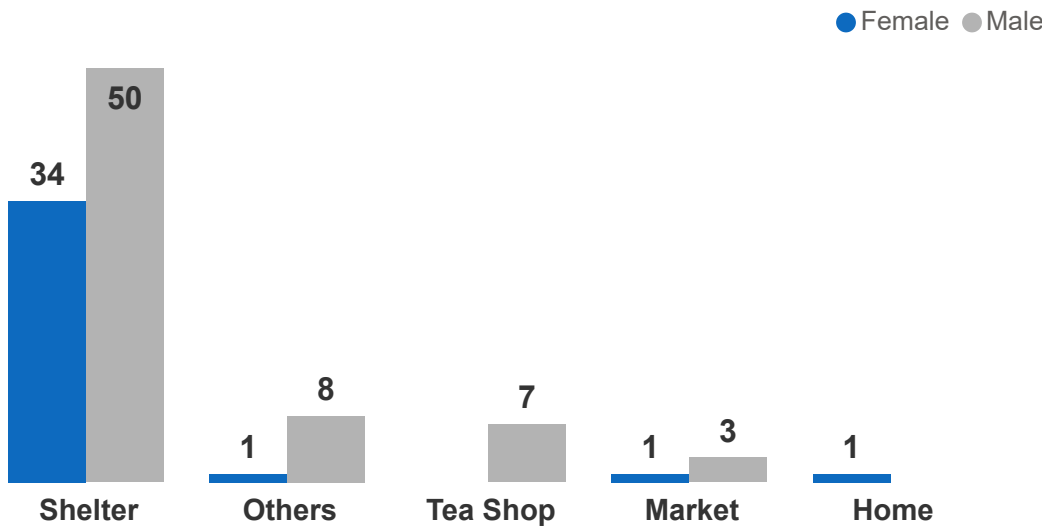

Type of Trafficking/Form of Exploitation

99% of the reported cases were victims of labour trafficking.

Place of Recruitment by Gender

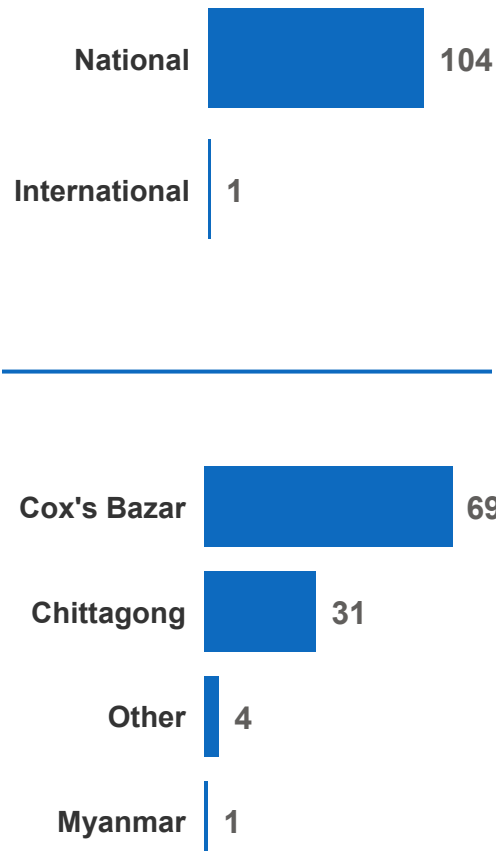

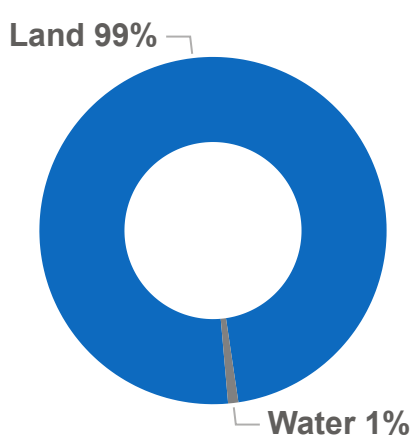

The recruitment or initial engagement into the trafficking situation occurs mostly while refugees are at "home" in their shelters

Promises During Recruitment

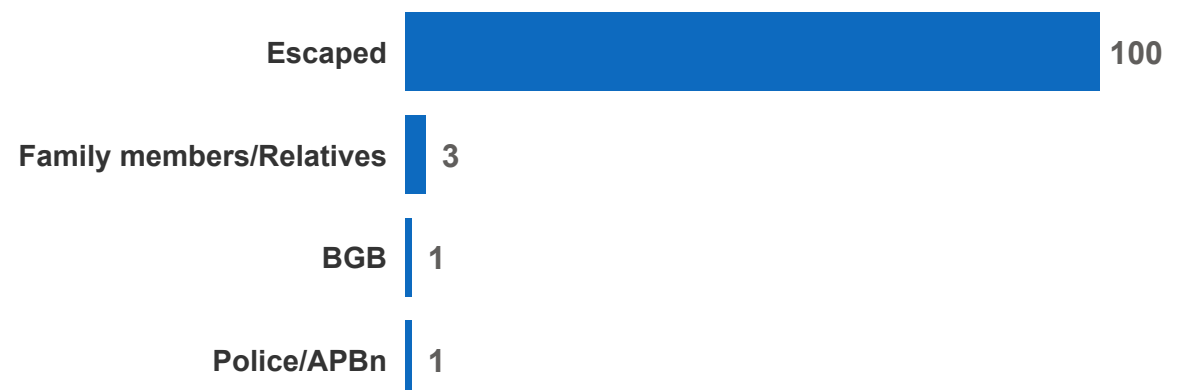

97% of cases reported involved promises of work made at the recruitment stage. In most cases, the activity during exploitation was in agriculture, construction, domestic work, livestock raising, and day labor.
