

GUIDANCE on THE IASC GENDER WITH AGE MARKER (GAM)

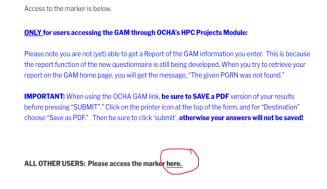

All project proposals will be shared with a copy of their respective GAM report which includes project GAM reference number. Gender in Humanitarian Action Working Group has provided GAM trainings for all sectors. This guidance is to provide a step by step guidance to complete the GAM questionnaire.

How to access the GAM:

- Click the link below to access the GAM questionnaire: https://www.iascgenderwithagemarker.com/en/home/
- Click the "Access the marker" (See below).

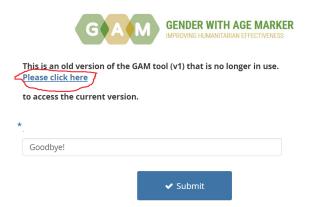

Click the "Access the marker here" (See below).

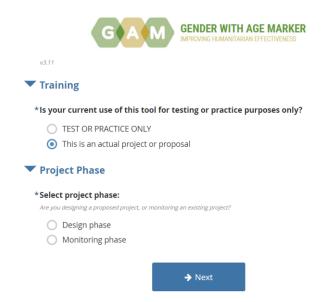

Click the "Please click here" (See below).

IASC Gender with Age Marker

How to fill the GAM:

- Once you are at the below main page of the GAM questionnaire, you can test completing the questionnaire, saving it as PDF and submitting it as part of the practice option, advance to your real submission.
- For your real submission, select "this is an actual project or proposal" and "design phase" and complete it page by page, in accordance with the instructions provided there.

- ➤ Please note that GAM is called a "marker" because at the end of filling in the questionnaire, you will receive a "code." This code provides an indication of the consistency of your strategy or program with respect to the different gender and age groups identified for assistance.
- ➤ Please fill the questionnaire precisely. **GiHA WG will review the accuracy of GAM reports** vis-à-vis actual proposal, as part of the Peer Review Teams of all sectors.

How to fill the GAM:

- Once you complete all questions you will recah the below page.
- ➤ Please note your "Project GAM Reference Number". You will need this number while completing the project template.
- Please click the **print** option (marked in red below) to save your GAM report as a PDF.
- > You will submit your GAM Report (PDF) together with your proposal.

➤ If you have any problems throughout any of these processes, you can contact your Sector's gender focus point.

Thank you for designing your project considering the needs of different genders and age groups.
