Discussion on acceptable messaging of GMP cards

- It is acknowledged by partners that GMP cards messages in Bangla as well as pictorials need to be contextualized for Rohingya community. However, this will consume considerable amount of time and resources. Translation of the language keeping the existing contents in the cards can be a feasible approach and need to be taken considering RRRC request to provide only English/Burmese pictorials to Rohingya community.
- GMP service improvement requires involvement of both CMAM and IYCF TWG. Thus, a joint task force has been formed for improving the service quality and recommend the additional messages, if any for the GMP cards for (UNHCR, GK, CWW and SHED).

In the meeting the IYCF TWGs members have highlighted the following important questions that HI needs to respond to as soon as possible.

- The joint task force led by SHED Nutrition Expert for GMP service will meet to discuss GMP issues and share their recommendations in next meeting.
