

418 Victims of Trafficking (VoTs) identified

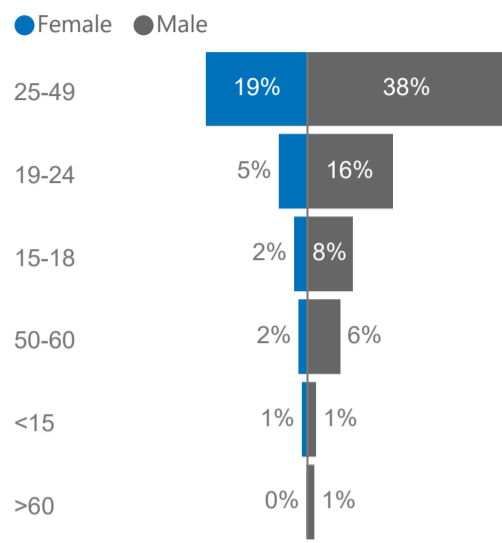

114 Women

247 Men

46 Boys

10 Girls

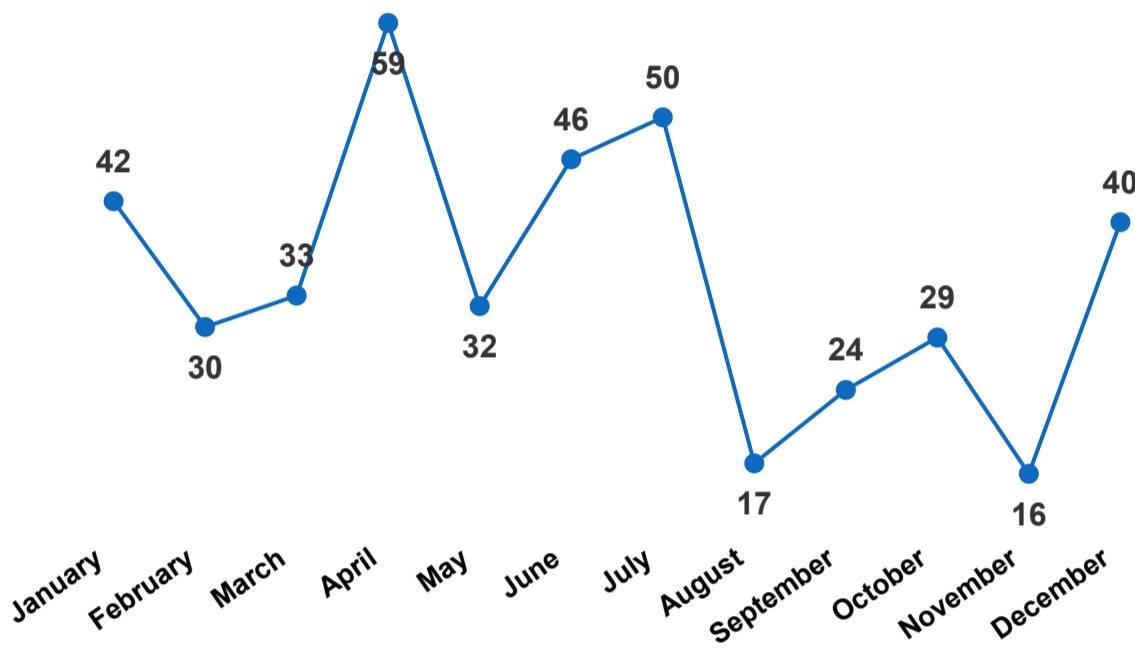

1 Non-binary

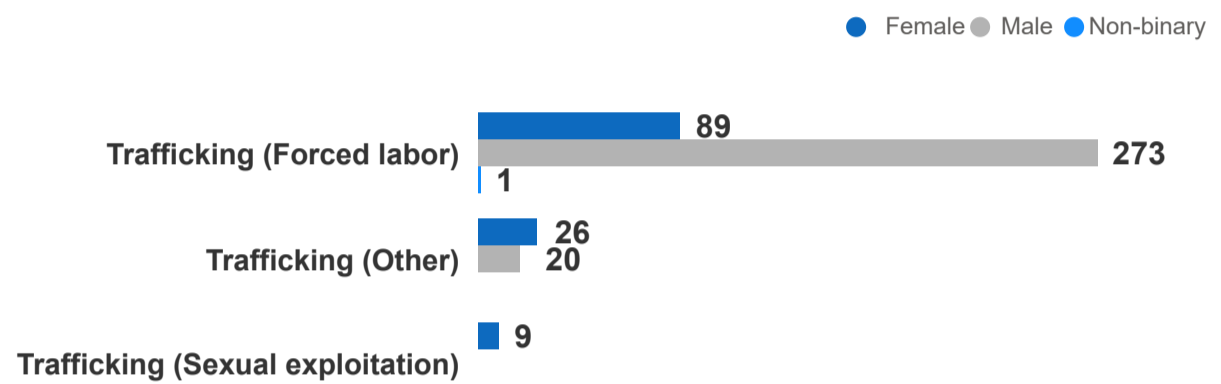

The Dashboard reflects available data about Rohingya refugees who have been victims of human trafficking, as identified and assisted by ATWG members. In the period between January and December 2023, 418 refugees were identified. There has been a marked increase in reported cases compared to 2022, especially among children. It is important to note that the data in this dashboard are generated solely from information communicated by ATWG members working on case management. Therefore, it should not be interpreted as indicating the overall prevalence of human trafficking in the camps.

Among the VoTs identified, **70.1%** identify as male, **29.6%** identify as female, and **0.3%** identify as non-binary.

Number of identified victims by Month

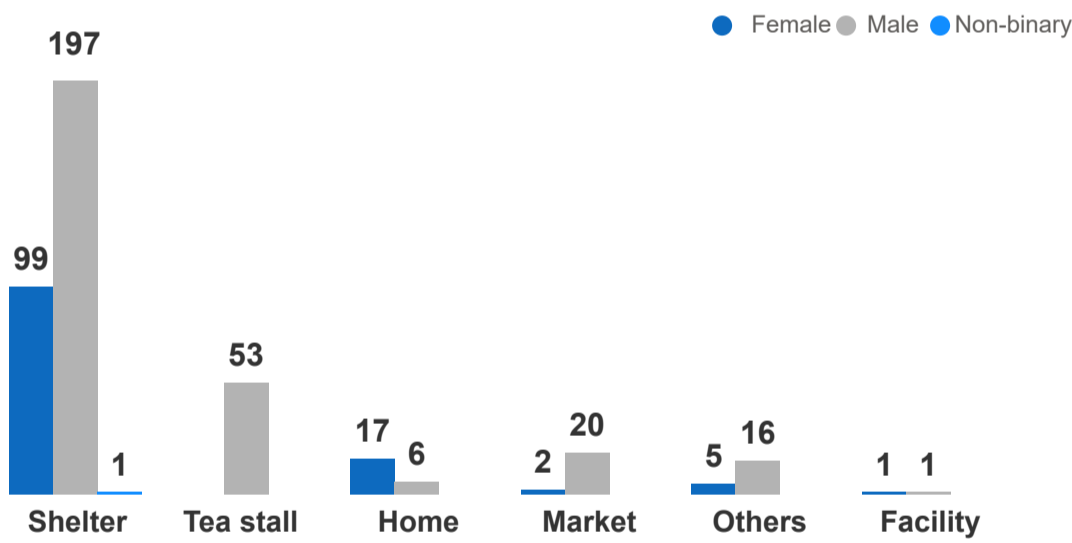

Type of Trafficking/Form of Exploitation

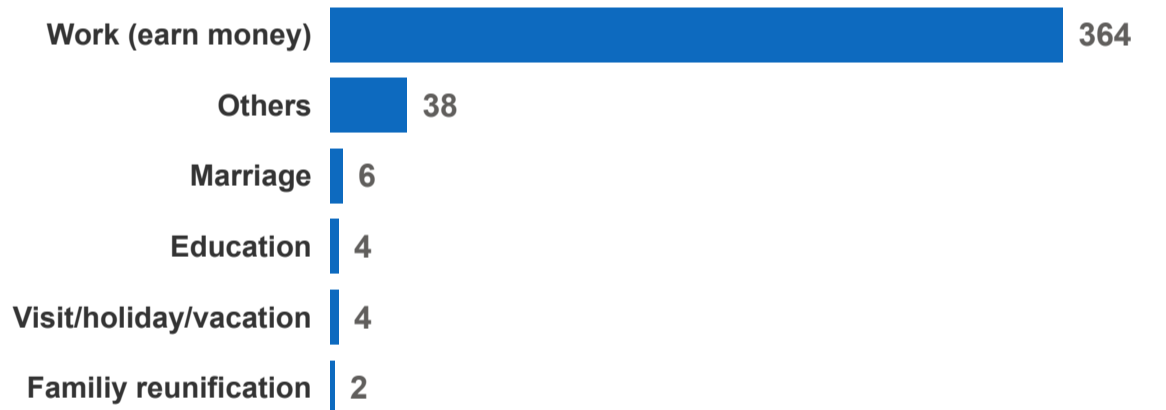

86% of individuals identified were victims of trafficking for the purpose of forced labor.

Place of Recruitment by Gender

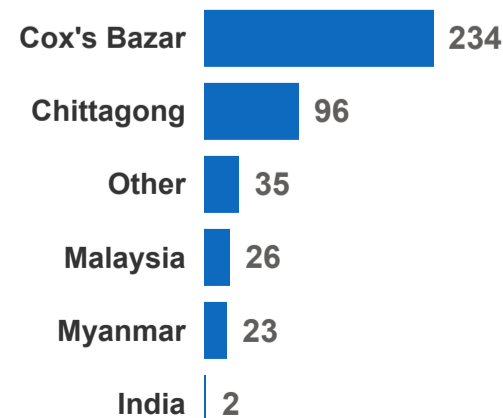

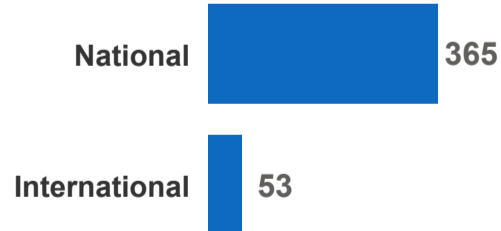

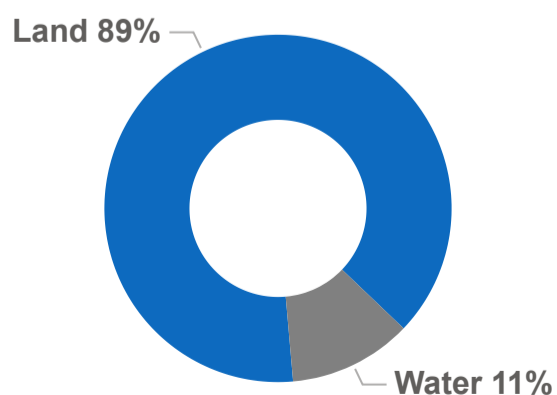

The recruitment or initial engagement into the trafficking situation mostly occurs while refugees are at their shelters (homes)

False promises in early trafficking stages

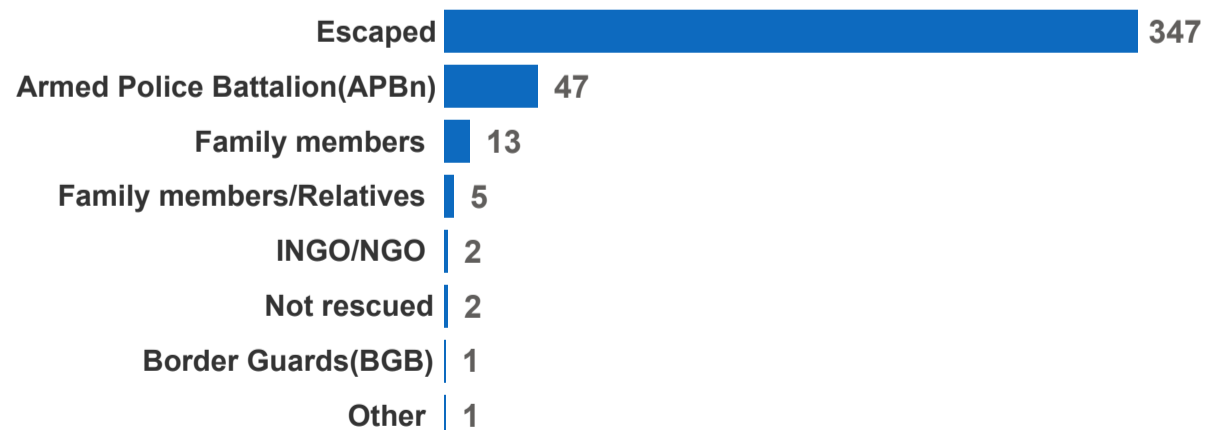

87% of reported cases, promises of work were made during the recruitment stage. In most instances, the exploitation involved activities such as agriculture, construction, domestic work, livestock raising, and day labor.
