PSEA Network Updates	<ul style="list-style-type: none"> The PSEA Network organized a workshop with the PSEA focal points, senior management of I/NGOs and the Sector/Sub-Sector Coordinators on 27 March, followed by a Training of Trainers (ToT) in Bangla on 'Saying No to Sexual Misconduct' on 28 March. The objective of the workshop was to discuss the roles and responsibilities of the senior management and the PSEA focal points and to receive feedback on the SOP for SEA complaint referral in the Rohingya Refugee Response. The PSEA Network printed 'No Excuse' Posters and 'Saying No to Sexual Misconduct' Posters and distributed to more than 100 organizations. The Network will be happy to distribute the posters if any member needs them. The PSEA Network highly recommended the Network Members to strengthen their in-house investigation capacity through the CHS Alliance's SEAH Investigation training. The links are available on the PSEA Network's website. From Cox's Bazar more than 50 participants enrolled for Tier-2 of the training. However, to become a certified investigator the participants need to complete Tier-3 of the training. The Network thanked INTERPOL SOTERIA team for funding 17 participants from Cox's Bazar. For now, we have only 1 certified investigator in the response. The Network requested the members to contact bilaterally for more information and support. The ToRs for the PSEA Network, PSEA Focal Points and the PSEA Co-Chairs have been endorsed and shared with all the network members. The ToRs are available on the PSEA Network website. 	PSEA Network

Revised SOP	<ul style="list-style-type: none"> The PSEA Network revised the 'SOP for SEA Complaint Referral in Cox's Bazar' based on several consultation with different stakeholders both in Dhaka and Cox's Bazar level. The revised SOP will be presented at the ROCT 	PSEA Network

	and UNCT meeting in May 2024 and the final endorsed version will be shared with the Network Members in June 2024.	
Task teams	<ul style="list-style-type: none"> The PSEA Network emphasized the importance of ensuring the safeguarding of Children. Findings from CHS Alliance (November 2023) showed that 1 victim/survivor out of 5 is a child and from the 2023 UN system-wide data on allegation, 27% of the victims/survivors are children (Data on Allegations: UN System-wide Preventing Sexual Exploitation and Abuse, 2023). Hence, the Network wants to give importance to Child friendly PSEA IEC materials. At the same time, from a recent survey (not yet published) by IOM and UNHCR we find that most of the Rohingya community people (75%) can not read or write Burmese or English and only 19% received awareness raising sessions/training. Hence, we need to ensure that we have the right PSEA communication strategy in place for this response. The Network will form 2 Task Teams: <ul style="list-style-type: none"> Child Friedly PSEA Task Team AAP and PSEA Taks Team ✓ The PSEA Network is requesting interested organizations to nominate themselves for the PSEA Taks Team.
