Budget- 41.9 M

Target- RC: 50,000 HC: 12,000

For RC-

AAL-20,000

NFTT-20,000

Vocational Training- 10,000

CDLO- 15,000

For HC- 12,000

Guidance on green skills

Advancing Green Skills and Businesses

For Rohingya Refugees and Host Communities in Cox's Bazar

- **Purpose of the Guidance Note:** Strategic framework for fostering green skills and sustainable business opportunities.
- **Addressing Vulnerability:** Cox's Bazar is highly vulnerable to climate hazards like cyclones, floods, and landslides.
- **Empowering Communities:** Supports self-reliance, reduces environmental pressures, and builds resilience.

Guidance on green skills

Definition of Green Skills

Building a Resource-Efficient Society

What Are Green Skills?

Knowledge and values essential for developing and supporting sustainable systems.

Key Competencies

Includes skills in renewable energy, waste management, sustainable agriculture, and production.

ILO's Definition

Green skills are crucial for reducing environmental impact and advancing a green economy.

Guidance on green skills

Key Objectives

Green Skills for Empowerment and Sustainability

- **Green Skills Training:** Equip refugees and host communities with eco-friendly skills to enhance employability.
- **Environmental Protection:** Establish practices to minimize waste, reduce pollution, and promote efficient resource use.
- **Income Opportunities:** Enable income generation through green businesses aligned with local policies.

Guidance on green skills

Green Skills & Business Opportunities

Solar Maintenance & E-Waste Management

- **Solar Maintenance Skills:** Train refugees to install, maintain, and repair solar systems for camp needs.
- **E-Waste Recycling:** Develop skills in dismantling, upcycling, and managing e-waste sustainably.
- **Pathways for Host Communities:** Host communities can create solar energy hubs and establish recycling cooperatives.

Guidance on green skills

Green Skills & Business Opportunities

Waste Management & Recycling

- **Upcycling Projects:** Train refugees to repurpose waste into sellable items like bags and mats.
- **Recycling Centers:** Host communities can establish centers for sorting, composting, and material reuse.
- **Youth Engagement:** Empower young people as environmental champions for sustainable waste practices.

Guidance on green skills

Green Skills & Business Opportunities

Soap Making

Natural Ingredients

Promote soap-making with sustainable resources like herbs and oils.

Hygiene and Income

Supports better hygiene and offers income opportunities for refugees.

Market Expansion

Host communities can scale production for local and regional markets.

Guidance on green skills

Green Skills & Business Opportunities

Jute and Bamboo Product Development

Jute Products

Transform jute into bags, rugs, and handicrafts for local and global markets.

Bamboo Crafting

Create durable products like furniture, baskets, and building materials.

Sustainable Materials

Promote eco-friendly and biodegradable alternatives for community use.

Guidance on green skills

Green Skills & Business Opportunities

Environment and Wildlife Conservation

- **Wildlife Protection:** Train communities in human-wildlife conflict management and conservation skills.
- **Eco-Tourism:** Develop skills in nursery management and landscape restoration to support tourism.
- **Agro-Forestry:** Promote sustainable farming practices and organic agro-business.

Guidance on green skills

Implementation Strategy

Steps to Advance Green Skills

Needs Assessment

Conduct baseline studies to identify skills and market demands.

Training Module Development

Create targeted, culturally relevant training materials.

Partnership Building

Collaborate with NGOs, private sectors, and government bodies.

Monitoring and Evaluation

Implement ongoing assessments to ensure effectiveness.

Advocacy Note Operationalization Plan

**Operational
Planning**

Thank you
